

Katun® Performance™ Color Toners for use in

## Ricoh Aficio MP C2000/C2500/C3000-series

Digital Copier/Printers

**The new Katun® color toner set for use in these Ricoh models provides you with significant cost savings and OEM-equivalent toner yields**

Katun PNs: 38747, 38748, 38749, 38750  
OEM PNs: 888640, 888641, 888642, 888643

### Europe

The introduction of these Katun® color toners expands a growing selection of Katun® imaging supplies for use in Ricoh Aficio applications. This toner set, which provides OEM-equivalent yields and image quality, provides the true cost savings that dealers need without the risk of poor performance or end-user dissatisfaction. These cost savings enable greater dealer profitability both short and long-term, because this widely placed machine series is still being actively sold into European markets.

### Benefits:

◆ **A Long-Term Profit Opportunity on a Large, Widely Placed Machine Base!**

These Katun® color toners are priced competitively against the OEM toners for these machines. The Ricoh Aficio C2000/C2500/C3000 series represents the most successful Ricoh Aficio color series introduced to date and is still being actively placed throughout Europe, providing you with substantial cost-saving and profit opportunities now and in the future.

◆ **Reliable Performance and True Cost Savings**

Not only do these Katun® color toners provide significant up-front savings, their strong yields, consistent performance and reliability ensure that your *true* cost savings remain high with every toner purchase. True costs – the toner purchase price plus any additional costs you could incur due to lower-than-expected-yields, poor performance and/or unexpected and costly service calls – may be much higher when you purchase other aftermarket toners. In challenging economic times, it's even more important that your supplies partner offers *true cost savings* in both the short and long term.

◆ **OEM-Equivalent Yields and Image Quality**

The yields and overall image quality provided by this Katun® toner set are OEM-equivalent, so you can be sure that you are getting the best overall value possible.
