New Katun® Performance™ remanufactured toner cartridges - the latest addition to a growing line of color supplies for use in OKI machines

The introduction of these new Katun® Performance™ toner cartridges increases Katun's growing line of high-quality products for use in OKI printers, and gives you yet another high-quality supplies option. By selecting a low-cost alternative to OEM products that still delivers reliable, industry-leading performance, you reduce your expenses while providing your customers with the cost savings they need now. And, by providing laser toner cartridges to your existing customers that might currently purchase only copier parts and supplies, you develop more opportunities to generate new revenue. Choosing Katun® Performance™ toner has always been a wise and reliable choice, and is even more so today given the current economic environment.

Benefits:

◆ Expanded Product Offering Provides More Revenue and Greater Profit Opportunities

Katun customers now have a quality alternative to high-cost OEM supplies for a wide range of popular OKI color digital printers. For the first time, dealers, distributors, and office supply retailers can confidently offer their customers a means to reduce their printing costs in these OKI applications without sacrificing quality.

◆ Expense Reduction – When You and Your Customers Need It Most!

Let's face it, in today's economic environment, what business, school district, government organization or financial institution isn't looking for ways to cut expenses? These Katun® Performance™ toners offer significant savings versus OEM supplies, without sacrificing product performance. Offer your customers a way to reduce their costs now and it will pay big dividends in the years ahead.

◆ Toner Performance You Can Trust

These new Katun® Performance™ toners have been developed and rigorously tested to provide outstanding color reproduction, image quality, image density, and page yields and to ensure complete compatibility with the OEM toner. Katun's testing and evaluation protocols guarantee industry-leading performance – giving you a reliable, profitable OEM alternative.

◆ High Quality Remanufacturing

These remanufactured toner cartridges fit, install, and perform the same as the OEM cartridges, making the transition from OEM to Katun® Performance™ seamless for the consumer. All remanufactured Katun® Performance™ products are developed and remanufactured according to ASTM, STMC and ISO quality guidelines.
