The introduction of this Katun® Performance™ toner cartridge for use in Canon i-SENSYS MF 5840-series machines adds to Katun's growing product offering for use in Canon printers. This remanufactured cartridge provides excellent performance and print quality, ensuring customer satisfaction.

Benefits:

◆ Toner Performance You Can Trust

This Katun® Performance™ monochrome toner cartridge has been developed and rigorously tested to provide outstanding fusing performance, page yields and overall image quality. As with other Katun® Performance™ printer cartridges, this toner offers industry-leading performance and is a reliable, profitable OEM alternative.

◆ High-Quality Remanufacturing

This remanufactured toner cartridge fits, installs, and performs similar to the OEM product, which helps make the transition from OEM toner to Katun® toner seamless for your customers. All remanufactured Katun® Performance™ toner cartridges are developed and remanufactured according to Katun's strict quality guidelines to ensure consistent quality and performance.

◆ Reduce Costs and Improve Your Bottom Line

All businesses are looking for ways to cut costs and gain a competitive edge. This product offers OEM-equivalent performance at significant cost savings, enabling you to improve your profitability without risking customer satisfaction.

◆ Expanding Line of Monochrome and Color Toner for use in Canon Applications

Katun is expanding its line of competitively priced monochrome and color toners for use in many of the most popular Canon printers and MFPs. Katun has the high-quality toner you require at an affordable price.

Machine Overview

In 2010, Canon introduced the i-SENSYS MF 5840 DN and ImageCLASS MF 5850-series machines. This machine series is compact in size and ideal for small workgroups. It offers print, copy, and scan functionality with automatic double sided printing. It has a quick first page out at 8 seconds and output speeds of 30ppm. The maximum paper capacity is 800 sheets. The machine also offers SEND functionality, which allows users to scan directly to email, a network folder, or USB.
